

Instructions:

Setting Up the Exercise Code:

1. Download and unzip: LSL-P-lightbend-scala-language-professional.zip
2. cd into the LSL-P-lightbend-scala-language-professional/exercises directory and start the sbt interactive session:

```
- LSL-P-lightbend-scala-language-professional/exercises$ sb  
- . . .  
- man [e] > Lightbend Scala Language - Professional > initial-state >
```

3. Verify you have the application working correctly. In an sbt interactive session started from the exercises directory, run test:

```
- man [e] > Lightbend Scala Language - Professional > initial-state > test  
- . . .  
  
- [info] Total number of tests run: 1  
  
- [info] Suites: completed 0, aborted 0  
  
- [info] Tests: succeeded 1, failed 0, canceled 0, ignored 0, pending 0  
  
- [info] No tests were executed.  
  
- [success] Total time: 14 s, completed 21-Mar-2019 11:09:50 AM.
```
